

ANARCHY HOLDS PETROGRAD

"DOWN WITH AUTHORITY AND CAPITALISTS," IS THE CRY

ADDRESS TO CATHOLICS

(By Associated Press.)
BALTIMORE, June 2.—In an open letter to the Catholic clergy Cardinal Gibbons strongly endorses the Liberty Loan and asked that they urge their parishioners Sunday to subscribe to it. Cardinal Gibbons says:
"These undertakings are the best evidence we can give to the world that we are firm in the faith and unswerving in our devotion to the cause of our country and those who have joined with us. It will prove that we are single minded and that we know no dividing lines in cases where the general welfare is to be considered."
"I would, therefore, impress upon the clergy of the archdiocese that they do all in their power to further the work, to the end that these bonds may be fully subscribed."

OVER TWENTY KILLED BY THREE TORNADOES

(By Associated Press.)
SULPHUR, Okla., June 2.—Seven persons are reported killed and several injured by a tornado which struck Drake, a village six miles south of here, yesterday afternoon. Four hundred buildings are reported demolished by another tornado in Coalgate, according to railroad reports. It is believed there have been numerous casualties. All communication is cut off.

(By Associated Press.)
KANSAS CITY, Mo., June 2.—Twenty-one known deaths, injuries to more than 100 persons, and large property damage resulted from a series of tornadoes in northeastern Kansas, northeastern Oklahoma and southern Missouri late yesterday. Coalgate, Oklahoma, the county seat of Coal county, a town of 3500 inhabitants, reports 13 deaths, 190 persons injured and the entire western portion of the town blown away. It was the mining section of the town the tornado struck, where the buildings largely were miners' cabins. The names of the dead were unobtainable, but it was said half of them were negro miners.

The extent of the tornado's work at Coffeyville, Kansas, was not known last night. The only report of any substance gotten out of there before all communication was cut off, was that two houses had been demolished. It is feared that numerous deaths had occurred. Drake, Oklahoma, suffered five deaths and the destruction of two residences and the school house. A school teacher marshaled her charges into a storm cellar when she heard the tornado coming and probably saved many lives for the building was razed over their heads.

Moore, Kansas, 25 miles from Kansas City, was seriously damaged by a twister that took three lives. From Ottawa, Kansas, came a report that many farm houses in Franklin county, had been wrecked and a number of persons injured. Lehigh, Oklahoma, near Coalgate, was hit by the same tornado that struck the latter town. Several persons were injured and extensive property damage done. Buffalo, Mo., reported a tornado, whirled through the section between that place and Lebanon, Mo., late in the afternoon, carrying down farm houses and doing other damage.

REBELS CAPTURE KRONSTADT

(By Associated Press.)
On the other battle fronts there have been no changes. Austrian attacks in the Vodic area of the Julian front north of Gorizia were repulsed by the Italians and Vienna reports the failure of Italian attempts in the same region.

The taking over from the government of the great fortress of Kronstadt by the local council of workmen and soldiers delegates and strike outbreaks in many of the large munition factories of Petrograd indicate that the new provisional government of Russia is meeting with increased internal dissension.

Kronstadt, 20 miles west of Petrograd, is the main fortress guarding the Russian capital, and is the main port of entry to the capital from the Baltic Sea. The workmen and soldiers delegates there not only have taken charge of the town, but have declared that they do not recognize the provisional government. The council announced that all relations between Kronstadt and Petrograd hereafter will be carried out only through the Petrograd branch of the workmen and soldiers delegates, which recently caused the overthrow of several members of the Russian cabinet.

More than 160 of the largest factories in Petrograd are threatened with a complete tie-up because of strike demands made by workmen. Several factories already have been tied up by strikes and a conciliation board is endeavoring to bring about an agreement between the workmen and their employers.

SUBMARINES IN A DUEL

(By Associated Press.)
AMSTERDAM, Via London, June 1.—8:30 p. m.—A collision under water between a British submarine and a German U-boat is reported by the Rheinische Westfalische Zeitung of Essen, which describes the incident as unprecedented. The paper states that the collision took place in "The Channel" April 9 and declares that a German submarine, while submerged, rammed a British submarine and that the British boat then emerged, bringing up the German lying across the bow of the British vessel.

The German vessel slipped off into the water and both vessels started their engines, and when separated by 50 yards both dived. The commander of the German did not see the British submarine again.

The paper asserts that both submarines were anxious to fight, but that it was impossible under the circumstances.
